MB Docket No. 04-207

Dear Chairman Powell:

I am writing to express concern about the Congressional proposal of an "a la carte" alternative to the current cable system. Its enactment would undermine the progress our country has made in diversifying its television programming.

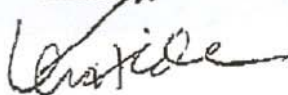

For far too long, minority groups had little programming that portrayed their communities in a positive light or programming that reflected their life experiences. The recent increases in cable channel capacity have added channels that now more adequately reflect the diversity of America.

These new channels have been able to thrive because of how cable operators introduce them into their program line-up. When a new channel is introduced, it is usually placed in a bundle with existing popular channels, which allows viewers the opportunity to try out the new channel. In an "a la carte world," where viewers pay separately for each channel, they are unlikely to spend their money on a new channel they know little about.

Thus, under an "a la carte system," channels that appeal to more specialized audiences, particularly ethnic, foreign-language and niche programming, such as BET, Telemundo, TV One, ESPN Deportes, C-SPAN and The Learning Channel, would have trouble attracting a substantial number of subscribers. Without an adequate number of subscriptions, revenue would decline, the cost of subscription would increase and specialty channels would consequently be put out of business.

I urge you to not support the enactment of an "a la carte system.

Sincerely,

A handwritten signature in dark ink, appearing to read "Lewis A. Fidler", with a long horizontal flourish extending to the right.

LEWIS A. FIDLER  
Councilman - 46th District
